

# JOHNSTON ROSES PLEASE BUT STILL HAS SLIGHT HOPE

BOISE, Feb. 17 (AP)—Duncan M. Johnston has again lost an attempt to escape a lifetime of imprisonment, but the former Twin Falls mayor has reason today for slight hope for clemency.

One member of the state pardon board voted for his release Monday while the other two, although they turned him down, admitted they felt doubt as to the justice of his conviction. He has reason to hope for clemency.

**Long Fight**  
The World War veteran, former civil leader and one-time aspirant to a congressional seat, was convicted twice of slaying George L. Olson, Salt Lake City jewelry salesman, in May of 1933. The supreme court of Idaho overturned the first conviction on a technicality but did not set aside the second judgment and sentence—guilty, life imprisonment—returned at the second trial. He has reason to hope for clemency.

Clark and Attorney General Bert H. Miller cast the votes that convinced Johnston to continue his imprisonment. Secretary of State George H. Clark favored the release, at this time, that I should oppose the pardon, but there are sufficient facts to cast a good doubt on my mind as to just what the true situation is in this case," Clark commented.

Briefcase Desires  
"And, although I have serious doubts about this case, I do not feel at this time I should vote for a pardon."

Attorney General Miller echoed Johnston's uncertainty as to Johnston's guilt, saying:

"If I could do anything to return the applicant to a trial court for a new trial I would have no hesitancy in so doing."

Miller said he had made an independent investigation of the case and that "sufficient facts have been presented . . . to raise some doubt in my mind as to the technicality of the application."

He added that "However, until more definite proof is made available," he could not vote for a pardon.

**Think Justice Aways**  
The sole question is whether justice was sufficiently established or not. It is not a matter of technicality of justice but of justice.

In January the board held a day-long session, after which the board resumed its findings which they argued tended to show Johnston's guilt.

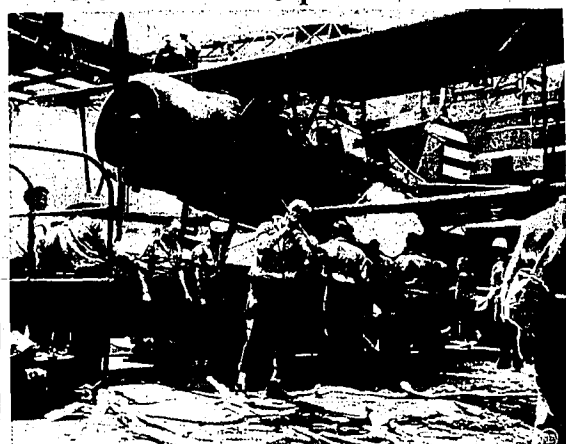

Wayne Decker of Salt Lake City, associated with Olson in a wholesale jewelry concern, appeared before the board and requested clemency for Johnston, formerly a customer.

**CHURCHES READY  
FOR Lent PERIOD**

At least four Twin Falls churches today prepared to observe the Lenten season, penitential period of the church calendar.

Wednesday, Other Twin Falls churches will later participate in the Lenten services. The Lenten season, penitential period of the church calendar, begins today.

## U. S. Planes Blast Jap Bases in Pacific

Among first pictures received in the United States following the navy's blasting of Japanese bases on Marshall and Gilbert Islands, this shows one of the attacking planes after it had returned to its ship. In the foreground, a sailor looks at a Japanese bomb hole in the vessel's hull.

## House Unit Votes Billions to Build Ships and Tanks

WASHINGTON, Feb. 17 (AP)—A \$32,170,901,900 bill for tanks, merchant ships and other war materials was approved by the house appropriations committee today and sent to the house floor for immediate consideration.

It was the largest measure yet in the recent succession of record-breaking war appropriations bills.

Transcripts of testimony before the committee's subcommittee on the bill, released with committee approval, showed that Undersecretary of War Robert P. Patterson said the measure's funds would provide all the necessary plant facilities, and much of the materials, needed to defeat the axis.

**Three-Year Split**  
The bill would provide \$28,880,000,000 for the army; \$3,820,000,000 for the marine corps, and \$3,500,000,000 for the navy. The total amount equals the country's entire outlay for World War I. It will bring to \$10,000,000,000 the amount of war funds approved since Jan. 1 and to \$14,000,000,000 the amount provided since June, 1940.

Money is provided in the measure for the \$4,000 units where construction President Roosevelt called for this year, and for 1,476 new merchant ships. The authorization is for the purchase of 1,476 new merchant ships. The authorization is for the purchase of 1,476 new merchant ships.

**"Blight" Cut**  
The bill which would provide \$28,880,000,000 in cash and \$3,500,000,000 in contractual authority. The authorization is for the purchase of 1,476 new merchant ships. The authorization is for the purchase of 1,476 new merchant ships.

**Wickard Reports  
Food Supply for  
Nations "Ample"**

WASHINGTON, Feb. 17 (AP)—Secretary Wickard believes that the world's food supply is ample for all the United Nations provided there is a big expansion in production.

Chairman Cannon (D-Mo.) of the house appropriations committee asked the agriculture department secretary during hearings on a \$130,000,000 fund for lend-lease food purposes if domestic production would be adequate to meet needs of America and the allies.

**\$8,000 Fine for  
"I Am Executive"**

LOS ANGELES, Feb. 17 (AP)—Mrs. Edna W. Ballard, convicted leader of the "I Am" movement, was fined \$8,000 and sentenced to 30 days in jail for violating laws of about 1934.

## "DRAFT" ROOMS TO GET GOVERNMENT FOR ESSENTIAL WORK

WASHINGTON, Feb. 17 (AP)—Selective service and U. S. employment service today undertook a joint program to "draft" workers on a voluntary basis for vital war industries that face labor shortages.

Officials said appeals to the patriotism of the workers and their employers, the lure of higher wages, and possibly threats of induction into the army would be the only instruments for shifting men from their jobs.

But they said that if the program fails, congress may be asked tentatively to authorize compulsory assignment of workers to jobs where they can contribute most of the war effort.

**Used in Britain**  
This was found necessary in Great Britain because of the conditions which brought it on, it was said, already are developing in this country—scarcities of men, materials, and machinery.

Officials said appeals to the patriotism of the workers and their employers, the lure of higher wages, and possibly threats of induction into the army would be the only instruments for shifting men from their jobs.

But they said that if the program fails, congress may be asked tentatively to authorize compulsory assignment of workers to jobs where they can contribute most of the war effort.

**Enrollment Successful**  
Selective service officials reported that the third enrollment ended successfully last night. It affected men in the 20 through 21 and 35 age groups.

Officials said appeals to the patriotism of the workers and their employers, the lure of higher wages, and possibly threats of induction into the army would be the only instruments for shifting men from their jobs.

But they said that if the program fails, congress may be asked tentatively to authorize compulsory assignment of workers to jobs where they can contribute most of the war effort.

**SOLON RAPSLACK  
OF S. DEFENSES**

WASHINGTON, Feb. 17 (AP)—Chairman Walsh (D-Mass.) of the Senate committee on the Judiciary today said that the costs of the United States were "almost infinite" and that as a result, the country might come when it would be necessary to bring the army home to protect them.

Walsh made the assertion during debate on the bill to extend the draft law to include all citizens between 18 and 45 years of age.

Walsh said that the cost of the war was "almost infinite" and that as a result, the country might come when it would be necessary to bring the army home to protect them.

**Pfeifer Released  
From Internment  
By FBI Officials**

SUN VALLEY, Feb. 17 (AP)—Pfeifer was released today after being held in Sun Valley for several days. He was released after being held in Sun Valley for several days.

**Seven Men Killed  
As Plane Crashes**

NORFOLK, Va., Feb. 17 (AP)—Seven men were killed yesterday when a military transport plane crashed in the mountains near Buena Vista, Va. Two crew members escaped without injury.

## Australians Order All Men to Colors As Japs Close in

By ROGER H. GREENE  
Associated Press Staff Writer  
"Kings Row" is a different type of newspaper serial story—a best selling novel brought to you instant—Chapter two of book-one appears today—It is now.

Prime Minister John Curtin ordered mobilization of "every human being" in Australia today as Japan's invasion hordes pressed a direct threat to Java, the heart of the Dutch Indies, and forced a new British withdrawal in the critical battle of Burma.

Blasting a path for invasion, Japanese planes bombed and machine-gunned several islands in the narrow Sundra strait which separates Java from Sumatra.

A bulletin from N. E. I. headquarters said Dutch bombers, striking back at the invaders, scored a direct hit on a Japanese transport and probably hit another in an attack presumably made off the Sumatra coast.

Java is the last big island barrier between the Japanese and the Australian continent. The situation in neighboring Sumatra, across the 20-mile strait of the Sunda, remained obscure following Japanese capture of Palembang, a major oil center. The Indies, petroleum output.

**BUHL BABY DIES  
IN HOME BLAZE**

BUHL, Feb. 17 (AP)—Fire of undetermined origin claimed the life of 17-month-old infant in a home today. The infant was named Buhl. The fire broke out in the living room where the infant was sleeping.

When Mrs. Moore left the house, her daughter was in the living room. The fire broke out in the living room where the infant was sleeping.

Authorities said her death could have been caused by the third-degree burns she suffered, or by suffocation.

**Draft Totals  
Drop Beneath  
High Forecast**

Total of 664 men between the ages of 20 and 44 inclusive registered at American Legion hall in Twin Falls today. The number was 50 per cent of the expected registration.

A statement was made today by Capt. J. T. Weaver, Jr., chief clerk of the Twin Falls selective service board. He said that the number of registrants was 50 per cent of the expected registration.

**EARLY WENDEL  
BUILDING BURNS**

WENDEL, Feb. 17 (AP)—One of Wendel's first buildings, erected in 1900 and since remodeled, was destroyed by fire that began between 10 and 11 p. m. today. Cold weather hampered the fire department in combating the blaze.

Known now as Martin's Sport shop, the building was at one time owned and operated by Martin Barker, former Twin Falls man. At present, owner Simpson, Ketchum, is "renting" the building to a local equipment owner, who is the business operator.

**Farmers Warned  
As Wave of Cold  
Hits Over State**

BOISE, Feb. 17 (AP)—The U. S. weather bureau forecast a cold wave for Idaho tonight with temperatures dropping to below zero. The cold wave warning was issued to permit farmers and stockmen to protect produce and livestock. The forecast was made by the San Francisco weather office and was based on a cold wave of 30 days duration was recorded in southern Idaho country.

CHURCHILL DEMANDS VOTE OF CONFIDENCE IN COMMONS

NAZI SHIP MOVE ASSISTS BRITISH

BY EDWARD W. BEATTIE  
LONDON, Feb. 17 (U.P.)—Prime Minister Winston Churchill, defiantly demanding a vote of confidence today, told the house of commons today that "terrible forfeits" will be exacted from the United Nations in the far east but that "our position in the Atlantic has been definitely improved" by damage to big German war-ships.

The escape of a German battle ship, including three powerful war-ships, from Brest through the Dover straits to Germany, was achieved only under heavy British attack that put the vessel out of action "in some time," Churchill said, and the battle actually improved the allied naval situation.

The British and American naval forces will be strengthened and reinforced by "units of the highest quality" before the German war-ships, including the 20,000-ton Scheerhorn and the 10,000-ton Prinz Eugen, can be put in operation again, he said.

Churchill, in his speech:

Secret Inquiry  
1. Said a secret inquiry had been ordered to determine why the German ships were not detected sooner and whether there was any lack of cooperation between the admiralty and the navy.

2. Indicated he would not accept demands for appointment of a minister of defense.

3. Called on members of the house to vote in line with their criticism rather than other sentiment—thus demanding a real showdown in debate next week.

4. Indicated that there might be cabinet changes later.

The prime minister was firm but not pugnacious as he faced the most critical house since he took office. He was cheered by the house.

Sir Stafford Cripps, often mentioned as a candidate for a war cabinet, returned the first-aid since his return from Moscow, Churchill said the German war-ships have been in the Atlantic for "four thousand tons of bombs" were rained on Brest, he said.

"British planes made 3,000 bombing sorties against the German ships there and in these raids lost 247 personnel and 43 planes," he said.

"The abandonment of Brest as a base was a decided blow to the Germans and to our conveyor was removed," he said.

Heavier Attack  
"A heavier attack (aerial) attack on Germany is now possible."

"The position of the German ships at Brest was a serious pre-occupation for the admiralty for they lay on the flank of our main convoys, on which we could not afford to make any time into the Atlantic or go to the Mediterranean."

"Accordingly the admiralty pressed for continual attacks from the air. These continued for 10 months, during which the ships were undoubtedly being hit by bombs."

"There is no doubt that our naval position in the Atlantic so far from being weakened, has been definitely improved."

"The bombing of the ships became so serious the continued that the Germans eventually came to the decision that they could not maintain them any longer at Brest."

"To have had heavy forces placed ready to intercept the German ships in the North sea would have exposed our ships to the same scale of air attacks as those on the German ships at Brest."

He declined to give any undertaking regarding the inquiry which is to be conducted, and specifically he refused to promise that the results would be made public.

Serious Position  
Turning to Singapore, he admitted that Great Britain's position in view of the fall and other far eastern reverses, was "extremely serious."

"The fall of Singapore was not unexpected, he said, and its possibility was included in the prime minister's statement in the house of commons when he won his recent vote of confidence."

"I have no information other than that in the public press nor would it be prudent to speculate on the various consequences which may follow from the fall of Singapore," he said.

"It would ill become the dignity of the government and of the house of commons to make a display of a worse service of the alliance of which we are part if we were driven into agitation and recriminations at this time."

World's Champion Jap Haters

This tough visaged group of Koreans, known as the world's champion Jap haters, would like nothing better than to line up some Nipples in their gun sights. They are some of 100 Koreans drilling under supervision of California state guard at Los Angeles.

Japan Aliens on Coast Still Near Vital Utilities, Plants

By JAMES A. SULLIVAN  
SAN FRANCISCO, Feb. 17 (U.P.)—Though enemy aliens have been ordered to leave 111 strategic defense areas along the Pacific coast, they remain close by and within easy access of defense plants, vital utilities, and the shore line, a survey disclosed today.

To balance this apparent danger, they have been registered, their short wave radios, cameras, firearms, those among them considered dangerous have been arrested and interned, and the federal bureau of investigation is keeping a close watch on the remaining ones.

Growing Fears  
The survey was prompted by a fear of growing fears, both here and elsewhere in the country, that this column of enemy aliens, particularly Japanese, might be able to cooperate with a sea-borne attack on the coast.

The survey was particularly widespread in California where city councils, defense units, veterans organizations, and various business groups have demanded drastic evacuation of the aliens.

LOAN UNITS PICK OFFICIAL STAFFS

JEROME, Feb. 17—Annual meetings for the Russell Loan and Jerome county National Farm Loan associations were held Thursday and Friday, Russell Loan meeting being held at the Eden L.D.S. recreation hall and the Jerome meeting at the I.O.O.F. hall in Jerome.

Speaking at both meetings were R. B. Toole, social service division of the Federal Land Bank of Spokane, and Ray Peterson, Jerome county extension agent.

Vance Relected  
At the Russell Loan meeting Thursday, Sam E. Vance, Jr. was elected to succeed himself as a director. Approximately 10 attended. Officers elected were: Mr. Vance, as president; C. Montgomery, vice-president; John M. Corley and Mrs. Shirley Pierce, acting secretary-treasurer.

Other directors named were Henry Schuch, Edna Clark, H. H. Hartzel, and E. J. McNeely, Eden. Mr. Toole discussed the condition of the Federal Land Bank, stating also that there were some 1,000 loans closed in 1941 in the 12th district.

Counting the 1942 loans, there are 25,000 Japanese aliens and citizens in California alone. Approximately 3,000 aliens have been interned.

The principle precaution, aside from the regulation requiring aliens to surrender short wave radios, cameras and firearms, has been the establishment of prohibited zones around areas of industries and military establishments. That hasn't resulted in the aliens going so far away they can't be seen quickly.

Near Waterfront  
For example, the San Francisco waterfront, one of America's busiest harbors, forms one of these zones. Only some 20 Japanese aliens live in the area and had to get out, not far away as "Little Tokyo," entering around Post and Fillmore streets, where 2,270 Japanese aliens live.

Most of the prohibited areas are in the immediate vicinity of important military points. Most of them are comparatively small, the largest being the zone around the city of Los Angeles, covering 32 square miles in which are the municipal airport, airplane factories and the waterfront. A few small industrial cities lie entirely within the zones.

Directors named for Appleton district were Glenn Vining, and Carl Blum, Appleton, and Charles Overfield, vice-president.

Mrs. Shirley Pierce and John M. Corley, acting secretary-treasurer. Other Appleton directors named were W. B. Jones, Jess Buckles, and Mr. Blum. Financial status of the association was also presented.

At the Jerome meeting, R. L. Hawley and Sears Stevens were elected directors. Other directors are: Mr. Corley, acting secretary-treasurer, respectively. All directors are elected to serve three year terms. Other directors are Roy Shullman and Charles Humphreys.

Jerome Group  
C. Y. Williamson was elected to succeed himself as director of the Jerome county group. J. F. Nielsen is president; C. Y. Williamson, vice-president; Mr. Corley and Mrs. Pierce are acting secretary and treasurer. Other members of the board include P. N. Trappan, A. R. Blod and H. S. Stockton.

O. R. Aker gave a talk during the morning session, the importance of making loans in good condition, retaining them so. Mrs. F. Trappan sang two selections. Mr. Peterson later addressed the group, giving a general outlook for farmers for the ensuing year.

Air Raid Rules "Mean What They Say," Mayor Asserts

Twin Falls' new air raid ordinance is "not on the books just to add space to our law books" but rather "it's there to be enforced and will be enforced to the letter," Mayor Joe Koehler announced at the city council session last night.

Leonard Avant, county air raid warden, appeared before the council and explained that under the setup the various air raid wardens could not make arrests, but rather were to call into the police station and report violations when they came during either a test or actual blackout. He wanted to know what policy the city would follow in backing up the wardens and in "paying attention" to their reports.

Just What It Says  
Mayor Koehler, with full approval of the other councilmen and also of Chief of Police Kenneth Barclay, declared that the law here "means just what it says."

"Any violators in the future will be arrested," Koehler asserted. "He pointed out that the law here is in our law books and it's in our law books."

"Any violators in the future will be arrested," Koehler asserted. "He pointed out that the law here is in our law books and it's in our law books."

TRUCK SALE BAN NOW SET FEB. 28

Government regulations restricting the sale and delivery of medium and heavy motor trucks and truck trailers have been amended to extend the expiration date from Feb. 11 to Feb. 28, the Twin Falls Chamber of Commerce has been notified.

Other federal rulings in regard to important materials have been received from Ralph E. Bristol, Salt Lake City, district manager of the priorities field service. They include the following:

New orders have been issued to conserve the supply of rayon. Inventory restrictions as to coal and coke have been revoked, and any person may make or accept deliveries of anthracite or bituminous coal.

New orders also are in effect to conserve supplies of tungsten, nickel and tantalum. Plug and tamper. Wholesalers are notified they may not sell any one or more persons more than their proportionate share of the wholesaler's available stock for any reason, whatsoever.

Halting of the reapplying and restocking of military equipment by anyone engaged in that business. Sale, purchase and delivery of silk to anyone except the defense supplies corporation now is prohibited. Kapok supply is under conservation.

Communities include: C. H. Hill, Ketchikan; Mrs. Alma Hill, Tallahassee; Miss Lena Bohm, Princeton.

60,000 BULLETS

For American Planes Can Be Made From The Copper in a Mile of Power Line

That's Why We Can't Build Long Extensions to Serve Non-Defense Activities!

War requires huge amounts of copper—for shells, battle-ship wiring, machines and many other uses. In order to conserve copper and other materials, the government has ordered all electric companies to curtail extensions of electric lines.

Winning the war comes first with all of us. We can be thankful that here in southern Idaho and eastern Oregon our electrical development has progressed so far . . . that our present facilities are so extensive.

We can use those facilities in a multitude of ways to help win the war . . . on the farm, in business life and at home.

Perhaps the curtailment of copper usages will cause some inconveniences . . . but until our nation has been made safe from its enemies, every American wants copper made into bullets—not into wire.

IDAHO POWER  
Electricity Does So MUCH Costs So LITTLE!

BUY U. S. DEFENSE BONDS. Invest every dollar you can spare in buying another share of liberty and freedom. America needs your savings!

BACKACHE

May be due to injury or from organic trouble. Find the cause. SEE
